PROFESSIONAL & WORK EXPERIENCE

Lab Assistant

2024-2025

Quest Diagnostics, Lenexa, KS

- Oversaw quality assurance processes for dried blood sample analysis, ensuring compliance with laboratory standards and protocols. Coordinated and managed the registration and tracking of incoming biological samples to maintain accurate records and efficient workflow
- Trained as a Medical Laboratory Scientist I in the AutoChemistry Department, where I prepared quality control (QC) samples for various biochemical tests including BUN, Potassium (K), Calcium (Ca), Phosphorus (P), and Glucose in both blood and urine specimens. Operated Beckman Coulter chemistry analyzers (AU5800-AU900) and adhered to standard laboratory protocols to ensure accurate and reliable diagnostic testing results.
- Conducted diagnostic testing and analysis of urine and blood samples following established protocols.
- Maintained a sterile and aseptic laboratory environment to prevent contamination and ensure accurate test results.
- Calibrate laboratory equipment regularly to maintain precision in sample analysis.

Lab Analyst - Data Analyst

2022-2023

SGS (Société Générale de Surveillance) Callao, Peru

- Implemented new Power BI models to summarize work hours, automate additional KPIs, statistically analyze results, and control documents.
- Successfully passed ISO 17025 audit assessment and Inter-Lab (Test Performance between different labs) evaluation at ground CN testing.
- Conducted routine inspections and audits to uphold standards in sample handling and analysis with GC, FIA instruments.
- Initiated the utilization of Macros in Google Sheets to increase productivity.

Lab Analyst

2019-2022

SGS (Société Générale de Surveillance) Callao, Peru

- Devised algorithms in Excel to optimize procedures by converting manual workflow into a digital format.
- Collaborated with a team to develop algorithms and programs to automate data analysis.
- Conducted Granulometry Analysis using Macros.
- Introduced Power BI Desktop for KPIs in SGS to efficiently consolidate data.

PROJECTS

KAI Training:

2023

Deep Process Modeling with Power Query, Metrics with Dax, and visualization. This model compiles and summarizes worker training from over 40 Excel spreadsheets, resulting in easier KAI Training tracking.

QR Tags:

2022

Macros with VBA in Excel to print QR tags from entry data. Increased client satisfaction, worker productivity, and efficiency by 120%.

Service Evaluation:

2022

Deep Process Modeling with Power Query, Metrics with Dax. Evaluation of annual business services to determine relative profits.

Statistics Reports:

2022

Deep Process Modeling with Power Query, Metrics with Dax, and visualization. This model created a statistical and visual analysis of imported results. My program increased client satisfaction and resulted in high contract renewal.

Interdiv:	2022
Deep Process Modeling with Power Query, Metrics with Dax, and visualization. Model processed data and collected internal incomes from cost centers automatically, which reduced the workflow by over 70%.	
Registration Application:	2022
Power apps working with JSON and JavaScript. This app created Database on the Cloud that connected programs such as Power BI and the database.	
Client KPIs:	2022
Deep Process Modeling with Power Query, Metrics with Dax, and visualization. Developed evaluations for both the business and clients, which resulted in improved KPIs.	
Google Sheets Macros:	2022
JavaScript in Google Sheets for Macros. Developed criteria to analyze and evaluate worker performance in Power BI.	
Python Data Analysis:	2022
Program using Python and SQL to process the data, alerts when an error is detected. As a result, work efficacy increased by over 120%.	
Excel Data Analysis:	2022
New models of Excel sheets, using criteria to develop algorithms which improved efficiency by more than 120%.	
Power BI for KPIs	2021
Deep Process Modeling with Power Query, Metrics with Dax, and visualization. Produced workflow insights and increased productivity.	
Granulometry Analysis Macros:	2021
Macros with VBA in Excel. Programed relevant criteria to easily analyze and visualize data, which increased productivity over 200%.	

EDUCATION

MSIT	Information Technology University of the People, Pasadena, California, USA	2025
B.S.	Chemical Engineering National University of Engineering (Universidad Nacional de Ingeniería), Lima, Peru	2018

CERTIFICATIONS & TRAINING

Data Analyst – SQL, Power BI, Python	2023
WE Executive Education (WE Educación Ejecutiva)	
MICROSOFT SPECIALIST BUSINESS EXCEL- Excel, Power Query, Power BI	2020
Education (Cámara de Comercio Exterior)	
Lead Implementer of Integrated HSEQ ISO Management Systems ISO 9001, ISO 14001, ISO 45001	2020
BSG Institute	

TECHNICAL SKILLS

- | | |
|---|---|
| <ul style="list-style-type: none"> • Python • Machine Learning • SQL | <ul style="list-style-type: none"> • Power BI • Tableau • Office 365 |
|---|---|

LANGUAGES

Spanish – Native/ Bilingual

English – Advance level

HONORS & AWARDS

Innovator in the SGS Star Program

2022

Implementor in Power BI - SGS South America

2021

LEADERSHIP ACTIVITIES

Co-Leader Focus Improvement for WCS (World Class Service)

2022
